Research projects	<p>2016 Researcher in a study intended to evaluate socio-economic conditions and quality of life in South Italy promoted by Coca-Cola HBC Italy.</p> <p>2015 Researcher in a project named <i>Rural Communication: strategies of territorial analysis</i> promoted by Municipality of Teggiano, <i>MOOI studio</i> and the participation of University of Salerno. The project intended to identify the good practices in analyzing a small territory and the strengths and weakness of Teggiano (a small territory) in order to promote and support its social and economic development.</p> <p>2014 Researcher in a project named <i>Building Social Cohesion</i> promoted by Prof. G. Di Franco Department of Economic and Social Sciences, Sapienza – University of Rome</p> <p>2012 Junior researcher in a survey named "Adolescents: profiles, representations, life expectations and experiences in Policastro Gulf", promoted by Department of Political, Social and Communication Sciences and Social policies and quality of life observatory of Sapri Municipality.</p> <p>2011 Researcher in a research on Italian Drugstores promoted by "Research Methods" and "Marketing and Communication" chairs of University of Salerno</p> <p>2011 Junior researcher in a survey on Italian Hotel Chains promoted by University of Salerno, University of Sannio and Second University of Naples.</p>

	<p>2010 Junior researcher in a survey on teenager needs residing in province of Avellino promoted by Youth Information Centre of Avellino</p> <p>2009 Junior researcher in a survey on immigrant social needs promoted by Department of Sociology and Political sciences of University of Salerno.</p>
Extra academic activities	<p>2014 Utrecht Summer School: "Introduction to Multilevel Analysis"</p> <p>2014 11th Summer School on Research Methods (direction: Alberto Marradi; recognized as School of High Education by Italian sociological association): "Introduction to structural equation modeling"</p> <p>2013 10th Summer School on Research Methods (direction: Alberto Marradi; recognized as School of High Education by Italian sociological association): "Factorial Analysis"</p> <p>2012 9th Summer School on Research Methods (direction: Alberto Marradi; recognized as School of High Education by Italian sociological association): "Multivariate analysis"</p> <p>2011 8th Summer School on Research Methods (direction: Alberto Marradi; recognized as School of High Education by Italian sociological association): "Theory and practices of sampling"</p> <p>2010 7th Summer School on Research Methods (direction: Alberto Marradi; recognized as School of High Education by Italian sociological association): "Linear and Logistic regression" and "Build a questionnaire"</p> <p>2009 6th Summer School on Research Methods (direction: Alberto Marradi; recognized as School of High Education by Italian sociological association): "Indicators and indexes" and "Cluster Analysis"</p>
Teaching experiences	<p>Since 2012, I have been a teaching assistant in Methodology and techniques of Social Sciences, Methodology of Social Sciences and Research Methods on Communication at University of Salerno.</p> <p>In these years, I delivered several lectures on Quantitative statistical analysis and Quantitative research methods.</p> <p>I am a Lecturer at Summer School on Methods of Social Sciences (direction: Alberto Marradi; recognized as School of High Education by Italian sociological association)</p>
Research interests	<p>Social Cohesion, Inequality, Cross-national studies, Quality of Life, Immigration, youth studies, Multilevel Analysis, Structural Equation Modeling, Multilevel Structural Equation Modeling, Multivariate Statistical Analysis, Online research methods.</p>

Educational Qualification	MSc (Summa cum laude) in Communication management, University of Salerno, major Quantitative Methodology
Award	<p>Neodemos e i giovani 2012</p> <p>Awarded by Minister of Labor and Social Policy for a paper on Social Cohesion (La Coesione Sociale in Europa, 2012; published on-line).</p>
Professional skills	<p>I have a good knowledge of the most advanced quantitative research methods: multilevel modeling, structural equation modeling, multilevel structural equation modeling, multiple-group SEM, confirmatory factor analysis, multilevel confirmatory factor analysis, latent class analysis, path analysis, longitudinal analysis, latent growth modeling, latent variable modeling, random intercept and random slope regression modeling, exploratory structural equation modeling, multidimensional clustering, categorical principal component analysis, cross-national/cultural analysis, mediation and moderation modeling, multivariate analysis of variance, multinomial logistic regression.</p> <p>I master the main statistical methods for data analysis: analysis of variance, multiple regression, logistic regression, principal component analysis, cluster analysis.</p> <p>I can build from beginning to end the general structure of a quantitative research (e.g. selection of indicators, built a questionnaire, built a questionnaire on-line, create a dataset or matrix to analyse data, create composite indices).</p>
Transferable skills	<p>Attention to details and commitment to high quality research</p> <p>Hard-working and excellent predisposition to teamwork</p> <p>Creativity in applying different approach to teaching and researching</p> <p>Positive attitude toward colleagues</p> <p>Working effectively in a team to achieve high quality goals</p> <p>Trustworthy and responsible</p> <p>Highly demanding toward myself, setting high standard objectives</p> <p>Openness to work proactively with colleagues in other work areas</p> <p>Enthusiasm for learning and constantly improving myself</p>
Software	<p>Spss</p> <p>Mplus</p> <p>HLM</p> <p>Lisrel</p> <p>Spad</p>
Languages	<p>Italian: mother tongue</p> <p>English: listening, reading, writing, speaking: C1.</p>
